

THE MARRIAGE OF FORM AND FUNCTION

Introducing the Avante™ Collection

Innovative design combines aluminum and glass to create a sleek, modern look. A variety of window/panel options that provides full or partial viewing combined with a large selection of aluminum frame finishes allows you to complement the exterior of your home.

Durable Construction

- 2-1/8" aluminum frame provides a virtually maintenance-free, long-lasting door.
- Tongue-and-groove joint plus vinyl bottom weathertight seal with retainer help protect against the elements.
- Galvanized torsion springs are attractive and longer lasting.
- Integral reinforcing fin provides increased strength and longevity.
- Attractive color-matched aluminum grip handles.
